EDUCATION

University of Cape Coast
2022-2026
Programme:
B.Sc. Computer Science

WORK EXPERIENCE

1. A.I powered student support chatbot for eLearning platform
December 2024
 - The bot was developed using prompt engineering techniques with python to assist students with study resources and academic queries.
 - Integrated the chatbot with the school's eLearning platform database to provide study materials and course-related assistance.
 - Chatbot's responses were optimised to enhance user experience and query resolution.

SKILLS

TECH STACK:

Python
R
SQL
Prompt Engineering

SOFT SKILLS:

Problem solving
Team player
Adaptability

EXTRACURRICULAR

- member, bytant innovation club - university of cape coast
- member, data science club - university of cape coast
